

2021 Atlantic Health System High-Performing Network of Post-Acute Partners

Updated October 5, 2021

Atlantic
Health System

Our Goal

Atlantic Health System (AHS) supports our patients in a variety of care settings. We have partnered with a team of high-quality, post-acute care partners to ensure that you have the best health outcomes and experience when additional care is needed after you leave the hospital.

You have the freedom to choose among all participating Medicare providers*. When you choose one of the integrated partners in this brochure, Atlantic Health System care team members support your care to ensure a safe and smooth transition from the hospital to the next setting of care.

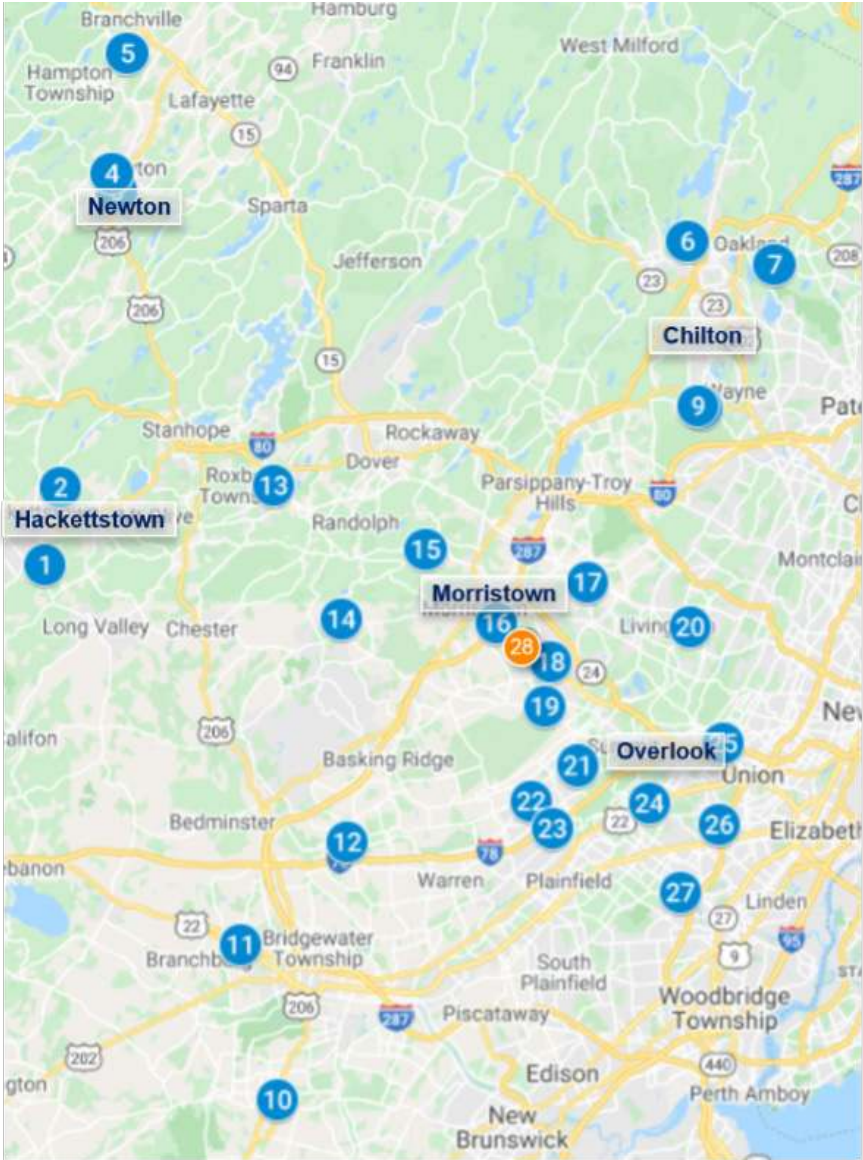

**Managed Medicare (also known as Medicare Advantage) and Managed Care Members will need to qualify and be approved for this benefit by your Managed Care payer. Your Managed Care network and coverage can impact facility choice or availability.*

Key Benefits of Choosing a Partner Facility

- › You will receive coordinated care during your transition from the hospital to the next care setting.
- › Atlantic Health System clinicians will remain engaged in supporting your safe and strong transition.
- › A dedicated AHS concierge support line for patients that choose these partners is available at 973-829-4594 for questions, feedback, and concerns.
- › Our care coordination team will coordinate with your primary care doctor and/or specialist to reduce further complications and prevent avoidable hospital visits.

You have freedom of choice among all participating Medicare providers. If you choose a non-integrated partner facility or agency, there may be limited oversight from the AHS care team after your discharge from the hospital. Whatever post-acute care facility you choose, your Atlantic Health System health care team will always work with you to support the best plan suited to your needs.

Atlantic Health System Partner Facilities

Skilled Nursing Facility (SNF) Partners

Location on Map	Medical Center Region	Facility Information	Centers for Medicare & Medicaid (CMS) Quality of Resident Care Star Rating

About Star Ratings

The Centers for Medicare & Medicaid Services (CMS) Star Ratings for SNFs:

The above-listed CMS Quality of Resident Care Star Ratings are assigned based on a select set of clinical data measures. Quality of Resident Care, Health Inspections, and Staffing each contribute to an Overall Star Rating also assigned by CMS. CMS star ratings are assigned by CMS to help consumers, their families, and caregivers compare facilities and agencies more easily. Star ratings are subject to change on a regular basis. For most up-to-date star ratings, or to learn more, visit [medicare.gov/nursinghomecompare](https://www.medicare.gov/nursinghomecompare). CMS recommends using star ratings together with other sources of information to determine whether a nursing home fits your or your family members' needs.

CMS Star Ratings for Home Health Agencies:

CMS Home Health Compare uses a star rating between 1 and 5 to show how a home health agency compares to others on measurements of their performance. The star ratings are based on 8 quality measures that give a general overview of performance. Ratings are calculated from rehospitalization claims data, OASIS collection data, and patient survey results. Visit [medicare.gov/homehealthcompare](https://www.medicare.gov/homehealthcompare) for the most up-to-date star ratings.

Medicare Benefits for Skilled Nursing Facility Care

Medicare Part A covers skilled nursing care in certain conditions for a limited time (on a short-term basis) if all these conditions are met:

- › You have Medicare Part A and have days left in your Benefit period to use.
- › You have a qualifying hospital stay.
- › Your doctor has decided that you need daily skilled care. It must be given by, or under the supervision of, skilled nursing or therapy staff.
- › You get these skilled services in a SNF that's certified by Medicare.
- › You need these skilled services for a medical condition that's either:
 - A hospital-related medical condition treated during your qualifying 3-day inpatient hospital stay, even if it wasn't the reason you were admitted to the hospital, or
 - A condition that started while you were getting care in the SNF for a hospital-related medical condition (for example, if you develop an infection that requires IV antibiotics while you're getting SNF care).

Your Costs in Original Medicare

You pay:

- › Days 1 to 20: \$0 for each Benefit period
- › Days 21 to 100: \$185.50 Coinsurance per day of each benefit period
- › Days 101 and beyond: All costs

If you have a Medicare Supplement Plan or Medigap Plan, this may help cover your coinsurance and other costs.

A Note for Patients with Medicare Advantage

Medicare Advantage and other Managed Care members will need to qualify and be approved for this benefit by your Managed Care payer. Your Managed Care network and coverage can impact facility choice or availability.

For more information on Medicare coverage for Skilled Nursing Facility care, visit [medicare.gov/coverage/skilled-nursing-facility-snf-care](https://www.medicare.gov/coverage/skilled-nursing-facility-snf-care) or call 1-800-MEDICARE.

For any questions or concerns regarding your High Performing Network skilled nursing facility experience, please call the Atlantic Health System concierge line at 973-829-4594.
